Members

As we mentioned in our last newsletter, we have been seeking to recruit new Board members. This is one of the most important processes that any organization goes through and the Executive Committee and

the Embassy were actively involved in the selection process. I am very pleased to report that we have expanded the Board by 10 people. As per procedure, their official confirmation will take place at the next AGM. These new members bring with them diverse experiences, knowledge and skills; rounding out our mix of government, large & small companies and service providers.

Website

During the coming weeks you will see some changes to the website as we make it more compatible for mobile devices.
